

Introduction

Some of the buses used on the routes listed on the following pages are low floor easy access buses. On some services all buses used will have low floor access.

To find out the times of easy access buses on these services:

- pick up a timetable at a **GMPTE Travelshop** on main bus stations in Greater Manchester; or
- phone **Traveline** on **0871 200 22 33**.
7am to 8pm Monday to Friday, 8am to 8pm Saturdays
and Sundays and Bank Holidays. Calls cost 10p from a landline.

Low floor easy access buses have no entrance steps and the driver can lower the bus at the kerb and put out a ramp if needed to reduce the gap from the pavement to the bus, making it easier to get on and off. When the bus arrives at the stop the driver will lower the bus and/or the ramp on request. There is one space on the bus for a wheelchair user and space for people with buggies.

The space for wheelchair users is usually on the right hand side of the bus, as you are moving down the bus. You should reverse into the space and travel facing the back of the bus, and remember to put on your handbrake. Let the driver know in good time when you want to get off by pressing the low level bus stopping button.

If you use a wheelchair, you should be able to use easy access buses if your wheelchair is this size or smaller:

- Total width: 700mm (27 ½ inches approximately)
- Total length: 1200mm (47 ¼ inches approximately)
- Sitting height: 1350mm (53 ¼ inches approximately)
from ground to top of head
- Height of footrest: 150mm (6 inches approximately) above floor

To request the information in this leaflet in a different format such as in Braille or on audio tape, or in a different language, please phone the Traveline number given above.
